**Subject:** Final Rule for CO Ozone Attainment Plan - Need Signature Before June 30th  
**Attachments:** Action Information Form\_CO 2008 Moderate Area Ozone Final.docx

Hi Doug and Deb – Our final rulemaking approving Colorado’s attainment demonstration for its 2008 ozone Moderate attainment plan is currently in review in the Air Program and OPRA. Attached for your “heads-up” information and review is the Action Information sheet. Our deadline is for signature on this final rulemaking prior to the July 20, 2018 attainment due date, to avoid complications with approving the attainment plan after the attainment date has passed. However, we need this final action to help meet our 3<sup>rd</sup> Quarter SIP commitments; thus, we need signature **before June 30<sup>th</sup>**.

We received one adverse comment from the Center for Biological Diversity (CBD), two comments supporting our proposal to approve the DMNFR Moderate attainment demonstration and sixteen comments that were outside the scope of our proposed action or failed to identify any material issue necessitating a response. The Action Information sheet describes our response to the CBD’s adverse comment.

This final rule should be to the RA’s Office later this week (hoping to get it signed on Friday) or early next week. Please let us know if you have any questions.

*P.S. – We have a Logan, Utah proposed Region 8/Region 10 action that also needs signed by June 30<sup>th</sup>. More info to come.*
